

DIVEST LA

WHO

Divest LA is a broad-based coalition of organizations including indigenous leaders and water protectors, environmental activists and people like you who care about your future and a world where our financial system works for the people and the planet.

WHAT

What is Divestment? Divestment is an international movement to pull money from organizations that invest in unethical practices such as foreclosures, fraudulent accounts and funding projects such as the Dakota Access Pipeline, private prisons, and other fossil fuels that pollute our communities and pillage the earth's resources for profit without consideration of the negative effects it has on our communities and our future.

WHERE

In major cities across the country. Seattle was the first city to divest \$3 billion from Wells Fargo and is now divesting from other large unethical banks as well. LA is the largest city with at least \$8B in funds we could potentially move. We will be the largest account to divest and cities including Santa Monica, Alameda, Davis, San Francisco, Santa Fe, and Philadelphia have already moved to do the same.

WHEN

NOW!! This is a waterfall movement! We have the power of the people behind us. It's time we tell the big banks that we're tired of them treating us, the people, with heartless insensitivity. It's time to put people before profit.

WHY

Foreclosures, predatory lending practices, and investment in unsustainable energy disregard the people in our communities. We do NOT have to accept corporations who see our resources merely as profit gain for their own self-interest. This is the time to STAND UP for your future. Join us in building a better world for children, for ourselves, for future generations.

Join DIVEST LA and write history as we overturn the banks that are profiteering on our suffering. It's time to end the cycle of greed and inhumanity, and tell Los Angeles City Council and the world that we want a better, brighter future of sustainability and ethically responsible practices.

Please visit our website at DIVESTLA.COM for more information and how YOU can get involved in the movement that will build a better future for all of us.
